

Initial Access

The first time Unity is started you will be prompted to login. Contact the service provider to receive your credentials, or for assistance with server connection details, as needed.

- 1. Enter the Login ID and Password credentials you received from the Service Provider. (*see fig. 1*)
- 2. Click to remember ID and password for future login, as desired, and click OK.
- 3. Click the Save button to commit setting changes and restart the application.

The Interface

- » Unity is split into three functional areas: Call Controls, Active Calls, and Busy Lamp Field where Contact directories, Call Logs and Voicemail may be reviewed. Instant Messaging (where enabled) is also available.
- » The Active Call List displays the status of all current calls for the logged in user, which are managed using the Call Control buttons.
- » The 6 all 6 ontrol buttons change dynamically based on the status of the call to provide appropriate actions.
- » When Unity first starts it automatically populates the Busy Lamp Field section with 8 or 30 random users in your group or enterprise [depending on Unity license assignment].

Call Controls

lcon	Function	Description
	Dial	Click this icon to dial a number and make a call. Right-click it to redial from the last 10 numbers called.
•	Answer	This button displays when a call is ringing.
•	Release/End call	This button displays when in an active call. Click to end the call. If you have multiple calls, click on the call you want to end first.
	Hold	This button displays during an active call. Click to hold the call. If you have multiple calls, click the call you want to put on hold first.
0	Retrieve	This button is available when a call is On Hold. Click the button to take the caller off hold.
00	Voicemail	Click the Voicemail button to send an incoming call to voicemail. Click the Voicemail button when idle (no active calls) to dial your voicemail box.
(?)	Transfer	Click the Transfer button to transfer a current call to a specified number. Drag and drop the call over a contact to transfer to them without entering their number.
8	Conference	Select two or more calls then click the Conference button to start a conference with those callers.

TRANSFER A CALL

- » Announced Transfer: Answer an inbound call then make a new call to the desired number, this will place the first caller on hold and initiate a new call. Once the new party answers, click transfer and transfer the two calls together.
- » Blind Transfer: While on an active call, dial a number or drag to/right click the recipient then select transfer, this will send the caller directly to the destination number and disappear from your call list.
- » Warm Transfer: Right click the user you want to transfer the call to and select "warm transfer". This will then put the original caller on hold while you talk to the other user, when ready, click the transfer button. (You can also transfer a call to someone's voicemail or mobile by right-clicking their icon and selecting the option.)

START A CONFERENCE CALL

- 1. Establish the first call.
- 2. Click Dial and call a second person.
- 3. Click the Conference button to merge the calls and start a new conference for all three of you.

» To add more people to the conference simply click Dial and start another call, then click the Conference button.

END A CONFERENCE CALL

- » To end the conference call but continue speaking to one of the callers, simply select the person/call you want to end and click the Release button.
- » To end the conference call and disconnect all parties, hang up the phone or select both calls and click Release.
- » To leave the conference but allow the other callers to continue speaking to each other, perform an Announced Transfer between the two calls.

MANAGE MULTIPLE CALLS

» To manage a particular call, first select it by clicking it in the Active Call Window. If there is only one call in the list it will be selected automatically. You can then use the call control buttons to perform different actions on the call.

ABANDONED CALLS

- » In the Agent Enterprise version, a supervisor can assign abandoned calls to the agent for a callback.
- » These will be listed in the "Abandoned Calls" tab in the Busy Lam Field pane. Double-click a call to make the outbound call.
- » Once the abandoned call has been called back, right-click to select the appropriate Mark as processed option. (see fig. 2).
