GENERAL EXCHANGE SERVICE

APPLICATION OF TARIFF

This tariff sets forth the service offerings, rates, terms and conditions applicable to the furnishing of intrastate local exchange and basic local exchange communications services by NTS Communications, Inc., hereinafter referred to as the "Company," to Customers within the local exchange service area defined herein. Rates, terms and conditions applicable to the Company's intrastate dedicated services and intrastate-switched access services are contained in the Company's Texas Rate Sheet No. 1.

The terms and conditions of this tariff apply to all local exchange Customers of the Company (both facilities-based and resold). The rates set forth herein are, however, only applicable to Customers purchasing facilities-based local exchange service from the Company. Resold local exchange flat rated service is generally provided to Customers at a five percent (5%) discount from the incumbent local exchange company's then-current rates.^{1,2,3}

ADOPTING COMPANIES

This document has been adopted by NTS Telephone Company, LLC, and **PRIDE Network, Inc., both of which are wholly owned subsidiaries** of NTS Communications, Inc.

(N)

¹ Resale includes both Total Service Resale (TSR) and UNE-P. TSR and UNE-P services and rates shall be subject to their availability under any interconnection agreement between the Company and the Incumbent Local Exchange Company. In the event of changes in the availability of TSR and UNE-P due to regulatory, legislative, or judicial action including re-negotiation of terms between the Company and the Incumbent Local Exchange Company, the Company shall have the right to change the affected terms of service, including pricing, on thirty (30) days written notice to the Customer.

² The resale discount shall not apply to the ILEC's End User Common Line Charge (EUCL). The EUCL for resold local exchange service shall be equal to the ILEC's then-current rate plus \$1.00.

³ Operator Services and Directory Assistance Call Completion will be provided to Resale Customers at the same rates as those charged to the Company's facilities-based Customers.

2. REGULATIONS (Cont'd)

2.6 Allowances for Interruptions in Service

2.6.1 Credit for Interruptions

Except as limited elsewhere in this tariff, when the use of service or facilities furnished by the Company is interrupted due to any cause other than the negligence or willful act of the Customer, or the operation or failure of the facilities or equipment provided by the Customer, a pro rata adjustment of the Monthly Recurring Charges subject to interruption will be allowed for the service and facilities rendered useless and inoperative by reason of the interruption whenever said interruption continues for a period of 24 hours or more from the time the interruption is reported to or known to exist by the Company. If the Customer reports a service facility or circuit to be inoperative but declines to release it for testing and repair, it is considered to be impaired, but not interrupted.

For calculating credit allowances, every month is considered to have 30 days. A credit allowance is applied on a pro rata basis against the Monthly Recurring Charges specified hereunder for Local Line or Local Trunk Service and is dependent upon the length of the interruption. Only those facilities on the interrupted portion of the circuit will receive a credit. Credit allowances for service outages that exceed 24 hours in duration will be rounded up to the next whole 24 hours.

2.6.2 Limitations on Allowances

No credit allowance will be made for:

- (a) interruptions due to the negligence of, or noncompliance with the provisions of this tariff by, the Customer, Authorized User, Joint User, or other common carrier providing service connected to the service of the Company;
- (b) interruptions due to the negligence of any person other than the Company including but not limited to the Customer or other common carriers connected to the Company's facilities;
